There will also as per usual be plenty of drinks promotions, locally brewed beer and sweaty sweaty bearded Post Rock lovers galore.

This festival provides new, innovative and forward thinking bands a stage and an audience that they would not normally get, as well as giving local artists and musicians the chance to perform to peers, music industry professionals and an appreciative, captive audience. It also provides locals with the chance to see music they would not normally get to see - all on the doorstep - for free.
